

full name: Noor Sabre Nasser Ibrahim Al-Shumaisi

Date of birth 01/23/1983

Certificate: Master's degree, obtained on 11/6/2012

Academic title: teacher, date obtained: 05/31/2016

Number of years of service in higher education: 15 years

Awarding body for the bachelor's degree: College of Science / University of Diyala

Date of granting the certificate: 2005

Awarding body for the master's degree: College of Education for Pure Sciences / University of Diyala

Date of granting the certificate: 11/6/2012

Master thesis title: The effect of magnetic field and growth regulators on induction of callus in ex vivo lalanki plant

:Jobs he held

1-Evening study course, Department of Biology / University of Diyala 2013-2014

2-Course of the Morning Studies Department, Department of Biology, University of Diyala - 2015-2024

3-Representative of the Laboratory Quality Department at the Tebeya College of Pure Sciences 2017

Universities and institutes where he studied

1-University of Diyala / College of Education for Pure Sciences from 2006 to now

Address Venue Type of Participation Year

The Sixth Scientific Conference at the University of Diyala 1

College of Basic Education Researcher 2015

The Tenth International Conference, College of Education for Human Sciences, College of Education for Human Sciences, University of Diyala, Researcher 2019

The First International Conference, College of Basic Education, Researcher 2020 3

Women and leadership in the workforce College of Education for Pure Sciences University of Diyala Lecturer 2021 4

Preparation and processing of medicinal plants for the extraction process College of Education for Pure Sciences University of Diyala Lecturer 2021 5

The courses he participated in and conducted

1-The title of the session The venue of the year

Practical applications of plant tissue culture 1

2- Department of Life Sciences, College of Education for Pure Sciences 2018

Using the ELISA device

Scientific journals and (impact factor) magazines that he published

1-The name of the journal, the title of the research, the country, the year, the issue in which it was published

The Swedish Journal of Scientific Sjsr

Issn:2001-9211 TheEffect of Sprying with licorice extract and organic fertilization of poultry .in the growth of fenugreek plant Sweden 2014 Volum 1

.Issue 6

2-Biotechnology Research Center: Response of Allenki Clementine seeds to germination, callus formation, production of alkaloids and hormones outside the body, Iraq, Volume VII, Issue II, 2013

3-Al-Fath Journal The effect of spraying with zinc sulfate on the growth of the yield of Lactuca sativa L. lettuce plants in the hydroponics system Iraq The Sixth Scientific Conference of the College of Education for Basic Sciences 2015

4-International Journal of Recent Scientific Research EFFECT OF SPRYING WITH IRON CHELATEIN GROWTH OF BLACK SEEDS (NIGEELA SATIVA L.) Volium6

Issue:10 2015

5-Biochem.cell.arch Reducing the heavy metals concentration from aqueous solutions by adsorbtion of organ peels and benefit from the risidues accessing to zero residues level (ZRL) India VOLIUM 20 NO1 2020

Creations or activities for which he won (awards / certificates of appreciation / thank you (books

Type of creativity or activity What was obtained (certificate of appreciation / letter of thanks) Title of the activity or creativity Awarding body Year

- 1-Participation in the preparation of the exhibition A book of thanks for the annual exhibition Biology Dean 2014
- 2-Publishing a research in an international journal, A Book of Thanks to the Dean 2015
- 3-Participation of the Examination Committee A letter of thanks from the President of the University 2014
- 4-Participation in the preparation of the book exhibition of thanks to the preparation for the scientific exhibition Dean 2015
- 5-Examination Committee Participation, Dean's Thank You Book 2015
- 6-Participation in the conference A book of thanks giving a research in the Sixth Scientific Conference of the College of Basic Education College of Basic Education 2015
- 7-Participation in the preparation of the book exhibition of thanks to the Dean 2016
- 8-Participation in the production of the college guide book of thanks to the Dean 2016
- 9-Registration on the Babylon website Thank you letter to the Dean 2017
- 10-Participation in the completion of the work of the Documentation Committee, a letter of thanks to the Dean 2020
- 11Appreciation of the efforts exerted Letter of thanks to the Minister 2021

:Authorship and translation

The title of the book, the name of the publishing house, the year of publication, systematic or non-systematic

1-Algae Science Central Press / University of Diyala 2020 non-systematic

Other activities

Supervising the fourth stage graduation research -

Supervising the application students (fourth stage) as a scientific supervisor
