

(CV)

Full name:	Nisreen Sabbar Hashim Hussein
Educational attainment:	Ph.D. 2023
Academic title:	Lecture
Scientific title:	Assistant Professor
General specialty:	Biology
Detailed specialty:	Botany-Taxonomy
Workplace:	Diyala University/ College Of Education For Pure Science
Department:	Biology Department
Research interests and direction:	Taxonomy - environment Science - Anatomy of plants

Published research:

Classification of some Wild Corneas of the Family Fabiaceae in the Sudoor-Diyala.

Taxonomy study of Wild Species of the Brassicaceae Family in Diyala Province-Iraq.

Taxonomy study of Wild Species of the Fabiaceae Family in Diyala Province-Iraq.

Anatomical and Chemical Study of (*Scorpiurus muricatus* L.)>

Study of the Effect of Aqueous for *Eryngium creticum* on the Histological Structure of Testes in the Albino Mouse (*Mus musculus*).

HEAVY METALS EVALUATION BY ATOMIC SPECTROSCOPY FOR DIFFERENT PARTS OF WATER HYACINTH (*EICHHORNIA CRASSIPES* PLANTS: BANKS OF TIGRIS RIVER AND AL-ZUHAIRAT VILLAGE SITES.

EFFECT OF PLANTING SEASON AND VARIETY IN SOME GROWTH CHARACTERS OF CORN

Effect of supplemental nutrition of nitrogen in some growth characters of corn (variety el-maha) under drip irrigation system.

**Effect planting distances and Foliar spray of Chelated Iron on some quantity characters of)
Corn (*Zea mays* L.).**

Anatomical and Chemical study of (*Scorpiurus muricatus* L.)
